

Renewable Energy Course

Class dates and times: October 20th, 24th, 27th, November 3rd, 7th, and 10th 2011 From 6:00 P.M. to 9:00 P.M. each day.
Final Classes will be November 12th and 13th 2011 From 8:00 A.M. to 4:30 P.M.
There will be a 30 minute lunch break.

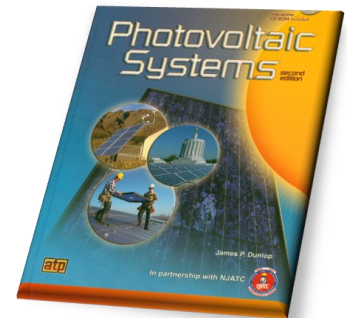

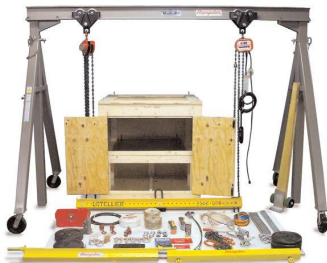

Course will be held at 2080 Skyview Drive.

The first portion of our course covers the principles of photovoltaics and how to effectively incorporate PV systems into stand alone or interconnected electrical systems. The student will learn system advantages and disadvantages, site evaluation, component operation, system design and sizing, and installation requirements and recommended practices.

The remainder of the course will cover torque for terminations, rigging, and medium voltage terminations. The 34 hour course has been approved for **16 hours of code.**, and **18 hours industry**

Required materials for Class:

- 2011 National Electrical Code.
- Basic Hand Tools for Weekend Session

Electrician Training Program for Wyoming

ON THE JOB TRAINING
